Web Developer Intern | Jan 2024 – Apr 2024, Remote

- Developed and maintained websites using JavaScript, PHP, and SQL Server.
- Worked on backend integration with Rest APIs to ensure smooth data communication.
- Enhanced existing website features for better functionality and user experience.

PROJECTS

Simplify Dashboard | React JS, React Router, React Hooks Form, Axios, Tailwind CSS

Developed a responsive web dashboard using React JS for managing user interactions, with form handling and validation using React Hook Form. Utilized Axios and React Query for data fetching and CRUD operations with backend APIs, and applied React Router for efficient client-side navigation. Styled the application with Tailwind CSS, achieving a clean and responsive design across all devices

Tehzeeb Baker's Clone | HTML, CSS, JavaScript, Bootstrap
https://tehzeeb.netlify.app/

In my web development journey, I took on the challenge of cloning the Tehzeeb Bakers website. Utilizing HTML5, CSS, JavaScript, and Bootstrap, this project allowed me to solidify my skills while creating a visually appealing and user-friendly platform for customers.
